Report on Anti-Drug Sensitization Program

The College Wellbeing and Anti-Substance Cell of Government Degree College (GDC) Kangan organized an **Anti-Drug Sensitization Program** on **16 June 2026** with the objective of creating awareness among students about the harmful effects of drug abuse and promoting a healthy, responsible, and drug-free lifestyle. The programme witnessed the active participation of **55 students** and **4 faculty members**, reflecting the college community's commitment towards combating substance abuse through awareness and education. During the session, participants were sensitized to the physical, psychological, social, and legal consequences of drug addiction. The programme emphasized the importance of making informed life choices, resisting peer pressure, and seeking timely support in cases of substance-related issues. Students were encouraged to become ambassadors of a drug-free society by spreading awareness among their peers and within the wider community. The interactive nature of the programme enabled students to engage in meaningful discussions and seek clarification on various aspects related to substance abuse, prevention strategies, and available support mechanisms. The programme concluded with a collective pledge by the participants to remain committed to a drug-free lifestyle and to contribute towards building a healthy, safe, and substance-free campus. The College Wellbeing and Anti-Substance Cell reaffirmed its commitment to organizing such awareness initiatives regularly to foster the holistic well-being of students.
